

ABSTRACT

A strip lighting housing and fixture assembly (10) is provided. The strip lighting housing and fixture assembly (10) includes first and second housing sections (12 and 14) which releasably engage one another. Sections (12 and 14) are releasably locked to one another by a locking plate (30) and further by a removable connecting member (42). Additionally, a pair of cover members (38, 40) are provided, with the cover members (38, 40) being releasably joined to the respective first and second housing sections (12 and 14). The lighting housing and fixture assembly (10) is collapsible and may be selectively disassembled.
